

SAP That's AI-Ready

RISE with SAP

The Smart Path to Cloud Integration and Innovation

The clock is ticking, and SAP's playing hardball. That 2027 deadline? It's as real as your coffee addiction. But don't panic—we've got your back with RISE with SAP. Look, we know you're comfortable with your current SAP setup. It's like that old pair of jeans—reliable, familiar, and hey, it still works. But SAP's basically saying, "Upgrade or prepare for digital exile." Harsh? Maybe. Reality? Absolutely. RISE with SAP is your golden ticket to avoiding the "unsupported software walk of shame." It's our all-in-one "don't let SAP turn off the lights" package.

But here's the kicker—you get all this in ONE contract. That's right, one bill. It's like an "Easy Button" for your digital transformation. Sure, change is scary. But you know what's scarier? Running mission-critical systems on software older than your interns. With RISE, we'll hold your hand through the whole process. We'll even throw in a stress ball with SAP's logo on it. Remember, 2027 isn't just a number—it's the year SAP turns into a digital pumpkin for the unprepared. Don't be that company still running ECC when the ball drops. Let's RISE together and show SAP we can play their game—and win.

Key Features

- **S/4HANA CLOUD:** Experience the power of real-time data processing, advanced analytics, and a simplified data model. Because running on old tech is so 2010.
- **BUSINESS PROCESS INTELLIGENCE:** Gain unprecedented visibility into your operations, identify bottlenecks, and optimize processes. Find out why Bob in accounting takes 3 hours for lunch.
- **SAP BUSINESS TECHNOLOGY PLATFORM:** This robust development platform allows you to create custom applications, extend SAP functionality, and integrate with third-party solutions seamlessly.
- **CLOUD INFRASTRUCTURE:** Choose from Azure hyperscale or SAP's data centers. Wave goodbye to that server room that doubles as a sauna.

The Impact

Accelerated Digital Transformation: RISE with SAP streamlines the transition to cloud-based ERP (S/4HANA), enabling faster digital transformation and innovation

Increased Agility and Adaptability: The cloud-based nature of RISE with SAP allows businesses to quickly adapt to market changes and scale resources based on needs

Reduced Total Cost of Ownership (TCO): You will see up to a 20% reduction in TCO within 5 years on SAP S/4HANA private cloud

Enhanced Innovation Capabilities: RISE provides access to advanced technologies like AI, machine learning, and analytics, enabling faster innovation and data-driven decision-making

Business Process Optimization: Through tools like Business Process Intelligence, companies can analyze, benchmark, and improve their business processes

Why inoBrix?

Expert Guidance: We provide end-to-end support, making your journey effortless. From the first "What's this?" to the final "We did it!"—we've got your back.

Tailored Approach: We assess your unique environment and recommend the simplest path to RISE with SAP. We're not one-size-fits-all; we're your-size-fits-you.

Industry Expertise: Our deep knowledge in various sectors ensures that we understand your challenges and can provide effective, industry-specific solutions.

Cloud-First Approach: Benefit from the agility and scalability of cloud solutions on Azure, allowing you to adapt quickly to changing market.

Ongoing Support: At inoBrix, we're not just your partner, we're your biggest fan, offering continuous support and updates to maximize your investment in RISE with SAP.
