

## SAP That's AI-Ready

### SAP Upgrade Your Way

*Tailored SAP Solutions That Fit Your Business Needs*

Look, we get that you don't want to jump on the RISE with SAP bandwagon. Recent reports from user groups like DSAG and ASUG reveal that 30-40% of you are hesitant to commit to RISE with SAP or S/4HANA. In fact, a 2022 DSAG survey showed that only about 30% of respondents were actively working on their migration plans. The reasons for this reluctance are clear: complex migration processes for highly customized environments, high costs associated with transition and ongoing subscriptions, skepticism about the value of RISE compared to existing solutions, and uncertainty about readiness for S/4HANA.

We get it, you want to upgrade on your terms. Lucky for you, our tailored SAP upgrade (minus the RISE) will bring you significant cost savings and operational efficiency, while avoiding that cloud mandate that's looming over you. At inoBrix, we're not here to pressure you into a one-size-fits-all solution. We're here to offer flexible alternatives that makes sense for you. If you want to stay on-premise, we'll support that. If a hybrid setup is more your style, we'll make it work. Private managed cloud? Done. SAP Business Technology Platform? Let's roll it out. You get the idea.
